Fans who want to see what "Dutch Schaefer and Nick Altrock really can team in a benefit game for the women has been released to Chattanooga, where and children's relief fund to aid the flood sufferers in the Middle West.

Schaefer is to be manager of this Climbers' second team, which meets the Jack Fournier, with a clouting aver-

Climbers' second team, which meets the Blue and Gray that day.

As funny as this pair have been at lime at the Florida Avenue Park, they never really get started until they are on some other field. They will repeat all the stunts that so entertained the tans in Norfolk, Richmond, and Char-lottesville this spring, and should be Connie Mack Is After lottesville this spring, and should be

Preparations for the opening of the American League season have been completed. Cars will be run at a oneompleted. Cars will be run at a one-ninute headway up Seventh street during the rush hours, thus being amply capable of caring for the big crowds sure to pack the park. The present motor car regulations will be in effect, all cars going north to W street after the game before turning down town.

Gates Open Early.

The gates will very likely open at noon, if the crowd warrants. The ticket booths will open for the sale of tickets at 11 o'clock, about eight thousand tickets in the pavilions and bleachers being available. However, despite the Strong Boxing Card 16,000 seats at the park, it is expected that standing room will be used before

"Perduke" Fowler, business manager of the Climbers, has finished instructing his men at the park, and they are now letter-perfect for the big rush on Thursday. Everything has been cared for, and the fans should be able to enter and leave the park in the quickest

possible time.

For an hour before the game a band concert will entertain the many fans waiting for the opening of the campaign, and the lads with the horns will also blow their breath between innings in merry tarra-ras for the edification of the players.

New York Yankees, the most The New York Yankees, the most widely advertised ball team in the country since Frank Leroy Chance undertook their management, will ring up the curtain bere, and the battle should be one for the gods. Walter Johnson and either George McConnell or "Slim" Caldwell will do the twirling. # HOW TO KEEP IN

ARTICLE V.-WHEN TO SLEEP

By C. EDWARD BECKETT. Director Physical Work Washington Y. M. C. A., and Director Washington

Just as the middle-aged man ought to eat less than he did m his younger days, also he ought to sleep more. Roughly speaking. I should say that probably he ought to devote an additional hour to slumber. Of course, this is only a general statement; the exact amount of extra sleep must be determined by each individual on the basis of his individual needs.

There is a simple rule for finding the amount of sleep you ought to have when coming into the third quarter of life's race. It is this: Sleep until you are rested. When you awake in the morning get up. Don't doze, don't fritter away time in a half-wakine state:

ter away time in a half-waking state don't get logy lying abed. Train self to sleep soundly when you sleep and wake up alive all over when you awake. I say train yourself; you can do it, as much as you can train yourself to any other task you set before you It is also a wise practice for any niddle-aged man who can so arrange his affairs as to be able to follow it, to take a nap after lunch. This nap should last from fifteen to thirty minutes. Maybe this seems like so much time stolen out of the afternoon's work, allow for it. You will be able to work more effectively for the rest of the day, and in addition you will add years to the length of your life as well as to that of your working career.

Sleep Out of Doors.

Whenever circumstances and environment allow, sleep out-of-doors at all seasons. City air is bad enough at at best; but it is infinitely worse whe shut up in stuffy rooms, where most city men have to breathe it for the greater part of their working hours. Under these circumstances, sleeping in the open in many cases is almost imperative. If this week's exercises require any especial effort to perform, it might be well to continue for some time longer with the set given last week Always remember that physical strain should be avoided.

1. Breathe deeply eight times (exhal-2. Arms at side horizontals, short
